## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 180 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 180 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### **DETAILED ACTION**

Receipt is acknowledged of the amendment, filed on 6/12/2003, which has been entered in the file. Claims 1, 4, and 5 are pending.

#### ***Allowable Subject Matter***

1. Claims 1, 4, and 5 have been allowed over the prior art of record.
2. The following is a statement of reasons for allowance: The prior art of record, taken alone or in combination, fails to teach or fairly suggest: a debit card information storage and transferring device wherein the reading means and the writing means are positioned in a first panel, the first panel having a slot therein for receiving the debit card such that the debit card may be positioned against the reading means, the control being positioned in a second panel, the display means being mounted on a first side of the second panel, the second panel being hingedly coupled to the first panel such that the first panel may be positioned over the display means, in combination with the other claimed limitations as set forth in the claims.

While the prior art of record, for example Lookofsky (US 5,416,730), Oogita (US 5,227,615), Kapp et al (US 5,233,547), Matsuda (US 5,179,502), Komaki (US 5,057,679), Komaki (US 5,039,846), and Urushihara et al (EP 0 793 204 A2), generally teach devices having different components, including card readers/writers, control means, display means, and input means, located in different panels hingedly coupled to each other, without the benefit of applicants teachings there is no motivation for one of ordinary skill in the art at the time of the invention to combine the prior art of record in a manner so as to create the claimed invention (namely, the reading and writing means

being located in a first panel which is hingedly coupled to a second panel containing the control means and the display, wherein the first panel may be positioned over the display means).
